[redacted] 25X1

5. (Internal Use Only - OLC) I called Mr. Don Henderson of the Senate Foreign Relations Committee staff, to tell him we were working on the Chairman's request for our views on S. J. Res. 77 but that it would probably be a week or ten days before a final agency position could be developed on this and then it would be necessary to clear our proposed reply with the Bureau of the Budget. I asked Henderson if he could see any problems from the Committee's standpoint on the timing and he said he could not see any problems at this time. He also commented that there did not appear to be any ground swell for action on this resolution at the present. He also noted that the Committee would probably be tied up for a while in considering foreign aid proposals. I asked Henderson if he would inform us of any change in this situation from the Committee's standpoint. He agreed to do so. 25X1
